Embark on a profound journey through faith, symbols, and the mysteries of the human spirit with *Simbolos*, the highly anticipated solo album by Anibal Ojeda. Drawing from the rich narratives of the Old and New Testaments, this album delves deep into the meaning of symbols, exploring the enduring power of belief amidst uncertainty and the haunting fear that the world may be built on lies—yet faith endures.

This ambitious work brings together an extraordinary collaboration of talents. The album's standout track, "The Cross," vividly recounts the harrowing final hours of Jesus' crucifixion. Featuring Premath Gonesh, Anibal's trusted musical partner, the piece is elevated by Gonesh's masterful keys, which infuse soaring beauty and emotional depth into the composition. Adding another dynamic layer is the brutal guttural vocal performance of Anibal's longtime friend, Juan Pablo Olarte—a Colombian old school death metal vocalist who boldly ventures into uncharted musical territory.

The album also marks a long-awaited reunion with Oscar Bor, who mixed and mastered the entire project in Curaçao, N.A., and contributed bass to the powerful track "YHWH."

Símbolos will also release an alternate version mastered by Juan Pablo Olarte — a heavier, more metal version of the two. A killer one!

Bringing the visual essence of *Simbolos* to life is Selina Fernandez-Shaw, whose breathtaking artwork perfectly encapsulates the album's depth and beauty.

Prepare to be moved by *Simbolos*—a profound reflection on faith, doubt, and the timeless human connection to the unknown.
